Major

Extreme

# Weather Key Points

Regional Operations Center

Western Region

Tuesday, November 22

- Lighter winds are expected through Wednesday, but occasional breezes, very dry fuels and warmer temperatures will keep locally elevated fire weather conditions in place for areas away from the coast in southern California
- Another moderate Santa Ana wind event is expected early Thursday morning through Friday morning across southern California
  - Wind gusts of 35-55 mph will be most common, with gusts to 65 mph locally possible
  - Elevated to critical fire weather concerns are expected for parts of southern California on Thursday due to warm temperatures and continued dry conditions
- Very cold overnight temperatures will focus mainly across inland regions through mid week
- Light rain and mountain snow is possible across portions of far northern California Tuesday into early Wednesday
- Better chances for rain and mountain snow will develop across northern California next weekend into early next week, with moderate to locally heavy precipitation possible, but exact details still remain uncertain at this time

# Daily Precipitation Forecast

Regional Operations Center

Western Region

Tuesday, November 22

**Tuesday**

**Wednesday**

**Thursday**

**Important Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.

**Precipitation (inches)**

# Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Tuesday, November 22

## **6-10 Day Outlook (November 26 - 30)**

### **Temperatures**

- Below normal temperatures are favored statewide

### **Precipitation**

- Above normal precipitation is favored statewide

## **8-14 Day Outlook (November 28 - December 4)**

### **Temperatures**

- Below normal temperatures are favored statewide

### **Precipitation**

- Above normal precipitation is favored across much of the state, with near normal precipitation favored across southern California and far northern California

## Impact Level Definition

1. **Impactful weather is not expected.**
2. **Potential threat to lives and property if no/incorrect actions are taken.**
  - a. Localized impacts on commerce possible.
  - b. Includes events that occur frequently.
3. **Potential threat to lives and property if no/incorrect actions are taken.**
  - a. Impacts on commerce possible.
  - b. Includes events that occur a few times per year.
4. **Actions likely needed to save lives and/or property.**
  - a. Significant impacts to commerce possible.
  - b. Includes events that occur infrequently.
5. **Actions required to save lives and/or property.**
  - a. Significant and extended impacts to commerce.
  - b. Includes exceptionally rare events.
